

The Associate in Applied Science Degree

Business Administration

Business Administration is the largest career opportunity sector in the nation. New jobs continue to open in management, marketing, accounting, and financial management services.

This is also a golden age for new venture formation: more small businesses are being created now than any other time in history. Students who can master management judgment, initiative, critical reasoning skills and communications ability will be in demand throughout their working lives.

For more information, contact Frank Wood 305-809-3287 or visit www.fkcc.edu for further information.

Florida Keys Community College's Associate in Applied Science degree (AAS) career programs prepare students for employment in specific career areas. Enter the workforce after two years of training in a specialized field. AAS degree career programs are developed under the guidance of local top business and industry employers who know the skills you need to succeed.
