

# The Annual Copyright License User Guide

## Overview

**Florida Keys Community College** has purchased an Annual Copyright License from Copyright Clearance Center (CCC). CCC is a not-for-profit collective licensing organization which provides universities and corporations with permission to reuse copyrighted content. Our license provides faculty, librarians, research and administrative staff, and students with pre-authorization to use and share text-based content. The license covers the use of all of the titles in the license repertory in both print and electronic format, for educational and research purposes. There are over a million titles included in the license repertory today and this list continues to grow at a rapid pace.

Types of use covered under our license include:

- Coursepacks (print and electronic)
- Classroom handouts
- Library reserves (print and electronic)
- Course management system postings
- Intranet and faculty website postings
- Internal e-mail
- Research collaboration
- Administrative photocopying

## Verifying Coverage

If you would like to use a portion of a copyrighted work in your course materials, all you have to do is verify that the title is covered under the Annual Copyright License. To find out if a publication is in the license repertory, simply go to [www.copyright.com/aclacademic](http://www.copyright.com/aclacademic). You should bookmark this page for easy access in the future.

You can search by either Publication Title, ISBN/ISSN or Publisher. In the example below, the *Journal of Abnormal Child Psychology* was entered. Once you have entered the publication title, *click* the *Search* button. Be sure to bookmark this link in your browser.

Note: When searching by title be sure to enter the **Publication Title**, not the title of the article or chapter.
